March 7, 2025

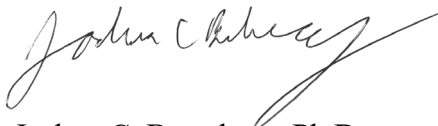

The CUNY Graduate Center is proud to host the 24<sup>th</sup> World Congress of Psychotherapy. Located in the heart of New York City and a leader in graduate education, the Graduate Center is a hub for reasoned debate and the exchange of ideas. It is also home to one of the largest Ph.D. programs in Psychology in the United States.

Appropriately, the auditorium you will utilize for your event is named in honor of Dr. Harold Proshansky, one of our early leaders, who is considered one of the founders of Environmental Psychology.

At the Graduate Center, we strongly value the creation of new knowledge and the sharing of that knowledge with the communities within which we live, work, and research. We hope during your time with us you will explore what once was a department store where people came to find new clothes, and now is a place to find new ideas.

I wish you an exciting and fulfilling conference.

Sincerely,

Joshua C. Brumberg, Ph.D.  
President  
The Graduate Center, CUNY

Professor of Psychology and Biology  
Queens College and The Graduate Center, CUNY
